1 Aims

This policy aims to:

- Explain what PSHE Education is at Long Wittenham Primary School
- Set out the school's arrangements for PSHE teaching and learning

2 Statutory Requirements

It is now a statutory requirement for primary schools to deliver Relationships Education and the Department of Education (DfE) encourages schools to deliver Sex Education that ensures both boys and girls are prepared for the changes adolescence brings and – drawing on knowledge of the human life cycle set out in the National Curriculum for science – how a baby is conceived and born.

Health Education is also statutory in all schools.

We at Long Wittenham we acknowledge that under the Education Act 2002/Academies Act 2010 all schools must provide a balanced and broadly-based curriculum and wish to have a policy that not only covers the statutory content but covers all aspects of our Personal, Social, Health Economic (PSHE) education provision.

3 Policy Development

This policy was written by the head teacher and developed in consultation with parents, teachers and other school staff and governors at Long Wittenham Primary School. We have listened and responded to all views to help strengthen the policy, ensuring that it meets the needs of all of our pupils. It has been approved by the school's governing body.

4 Definition of PSHE

Our PSHE education, including statutory Relationships and Health education, and non-statutory sex education, as recommended by the DfE, provides a framework through which key skills, attributes and knowledge can be developed and applied. This promotes positive behaviour, good mental health and wellbeing, resilience and achievement, helping children to stay safe online, develop healthy and safe relationships, making sense of media messages, challenging extreme views and having the skills and attributes to negotiate and assert themselves now and in the future.

The school's PSHE provision supports the school's aims of developing confident citizens and successful learners who are creative, resourceful and able to identify and solve problems. The social and emotional development of pupils is embedded throughout the entire school's curriculum and culture.

The school has a powerful combination of a planned thematic PSHE program, built around a spiral curriculum of recurring themes, designed to:

1. Give pupils the knowledge and develop the self-esteem, confidence and self-awareness to make informed choices and decisions;
2. Encourage and support the development of social skills and social awareness;
3. Enable pupils to make sense of their own personal and social experiences;
4. Promote responsible attitudes towards the maintenance of good physical and mental health, supported by a safe and healthy lifestyle;
5. Enable effective interpersonal relationships and develop a caring attitude towards others;
6. Encourage a caring attitude towards and responsibility for the environment;
7. Help our pupils understand and manage their feelings, build resilience and be independent, curious problem solvers;
8. Understand how society works and the laws, rights and responsibilities involved.

Relationships and sex education (RSE) is part of lifelong learning about the emotional, social and physical aspects of growing up, relationships, sex, human sexuality and sexual health. RSE, within PSHE, aims to give children and young people essential skills for building positive, enjoyable, respectful and non-exploitive relationships and the skills to stay safe both on and off line. It enables pupils to explore their own and other's attitudes and values and builds their self-esteem and confidence to view their own sexuality positively. **RSE is not about the promotion of sexual activity.**

5 Organisation and Delivery of PSHE

We use the Coram Education SCARF programme to support the delivery of PSHE and RSE. RSE is taught within the PSHE curriculum. Our PSHE curriculum is taught across 6 themed, termly topics in a spiralled curriculum, with the RSE curriculum integrated into these topics throughout the year (see appendix 1). Each academic year, children will meet new challenging opportunities, whilst building on their learning from the previous year. In term 6 every year we will teach the 'Growing and Changing' unit, these lessons will be taught to discrete year groups to ensure the content is appropriate for their age. The rest of the 5 termly topics will be taught on a two-year rolling programme.

6 The Early Years Foundation Stage

In the Early Years Foundation Stage, PSHE education is about making connections; it's strongly linked to child-led activities, including play. PSHE is taught through activities that are part of topics, as well as on an individual basis to develop personal skills such as dressing, feeding and toileting. Positive experiences are built through daily opportunities, to share and enjoy a range of different activities. Children are given the opportunity to engage in social activities, as members of a small group or occasionally during whole-school activities.

7 KS1 and KS2

The SCARF programme divides the year into 6 themed units:

1. Me and My Relationships: includes content on feelings, emotions, conflict resolution and friendships;
2. Valuing Difference: a focus on respectful relationships and British values;
3. Keeping Myself Safe: looking at keeping ourselves healthy and safe
4. Rights and Responsibilities: learning about money, living the wider world and the environment;
5. Being My Best: developing skills in keeping healthy, developing a growth mindset (resilience), goal-setting and achievement;
6. Growing and Changing: finding out about the human body, the changes that take place from birth to old age and being safe.

Within National Curriculum Science in Y2, the children learn that animals, including humans, have offspring that grow into adults. They should be introduced to the concepts of reproduction and growth, but not how reproduction occurs. In Y5, children are taught about the life cycles of humans and animals, including reproduction. They also learn about the changes that happen in humans from birth to old age. This includes learning what happens in puberty.

It is important that the transition phase before moving to secondary school supports pupils' ongoing emotional and physical development effectively. The DfE recommends that all primary schools should have a sex education programme, tailored to the age and the physical and emotional maturity of the pupils. Within our non-statutory sex education that takes place in Y6 children will learn about how a baby is conceived, whether through sexual intercourse or IVF. This information builds on content they have previously learnt in the programme about relationships, puberty changes and reproduction; it lays the foundations for their ongoing Relationships and Sex Education in their secondary phase.

We strongly believe that our PSHE education programme is just one part of what we do to help all of our pupils to develop the knowledge, skills, attitude and understanding they need to fulfil their potential. Throughout the school, learning environments provide children with a safe and supportive place to develop their confidence, ask questions, build relationships, reflect and express their views and opinions and put what they have learned in their lives into practice. PSHE is also developed through the assemblies, being a school council representative, residential visits, school trips, visitors coming into school, having parents into lessons, themed days, fundraising events and being involved in community events. Children learn about British values in PSHE lessons and in the wider school through our whole school values.

PSHE lessons are taught by their class teacher once a week in their timetabled PSHE lesson, throughout the whole year in their usual classes, in mixed sex groupings, using a range of interactive teaching methods, e.g. activity sheets, films, songs, online games, and drama techniques. Class teachers follow the suggested six half termly units provided by SCARF for each year. The lesson plans list the specific learning objectives for each lesson and provide support for how to teach the lessons; class teachers and the PSHE subject leader often discuss this on an informal basis. At times the class teacher may decide to amend the organisation of the curriculum, to meet the needs of individuals and their class. This is a valuable and important aspect of delivering a curriculum which aims to meet the individual needs of all children. Assessment of the children's knowledge and skills for each unit is completed at the start and end of each

term. SCARF provide teachers with resources/evaluations to carry out a baseline assessment at the beginning of each unit and a resource to measure progress at the end of the unit. This type of evaluation enables both teacher and the children to see clearly progress that they have made.

At Long Wittenham we believe that it is important to explicitly teach the knowledge and skills in the PSHE and RSE curriculum and to also allow children time to transfer them from one subject to another and from school to their lives at home and in the wider community. The PSHE curriculum, including RSE, is delivered during timetabled PSHE lessons by class teachers. Some aspects of the PSHE and RSE curriculum may also be delivered through the following subjects: Science, Religious Education (RE), Computing, Physical Education (PE) and assemblies. PSHE and RSE will be delivered within a mixed gender class. Assemblies are delivered by members of the senior leadership team, class teachers and visitors. Where visiting speakers from the community, e.g. community police officers, school nurses, fire fighters, are invited to support the delivery of aspects of the PSHE or RSE curriculum in assemblies or lessons, their input will be monitored to fit with the curriculum. Teachers are always present during sessions delivered by visiting speakers and the teachers remain responsible for the delivery of the PSHE and RSE curriculum.

In order that parents/carers are informed and can be involved in supporting their child, we will inform parents prior to the teaching of sensitive aspects of the RSE curriculum, including, inappropriate or unsafe physical contact, how to report any signs of abuse, puberty and the menstrual cycle. We will also use our knowledge of the children and their experiences and inform parents on an individual basis if we feel there may be a need to. Throughout term 6 'Growing and Changing' teachers will upload resources weekly that are used in school to support parents with follow up conversations at home.

8 Terminology

When teaching children about the human body we will use the correct names for body parts. In Key Stage 1 the terminology used will be: genitals, penis, testicles, vagina, vulva, breasts, eggs, sperm. In Key Stage 2 the terminology will be the same as Key Stage 1 with the following additions: puberty, periods, menstrual cycle, erection, ejaculation, wet dreams, ovaries, womb, clitoris, labia, pubic hair

9 How the delivery of PSHE will be made accessible to all pupils

As far as is appropriate, pupils with special educational needs follow the same PSHE education programme as all other students. Careful consideration is given concerning the level of differentiation needed, and in some cases the content or delivery will have to be adapted and extra support provided to ensure all pupils are enabled to access and develop key skills and knowledge through PSHE. Teachers and/or teaching assistants work with individual pupils where required, and if appropriate.

Our school ensures that the Relationships and Sex Education (RSE) elements of the PSHE education programme are relevant to all pupils; whatever their gender identity. All pupils learn together about all the changes that someone may experience as they go through puberty to help develop empathy and understanding and to reduce incidences of teasing or stigma. This will also ensure any child that identifies as transgender will have access to RSE that is relevant to the puberty they are likely to experience.

Our school acknowledges different ethnic, religious and cultural attitudes, as well as recognising that pupils may come from a variety of family situations and home backgrounds. These different families are acknowledged through our teaching and the use of resources that promote diversity and inclusion in Relationships Education.

Research shows that, on average, about 4% of pupils will go on to define themselves as gay, lesbian, bi-sexual or pansexual (GLBP). It is possible that some pupils will also have GLBP parents/carers, brothers or sisters, other family members and/or friends. Our PSHE education acknowledges this through scenarios, in a sensitive, honest and balanced consideration of sexuality. This helps create a safe environment for all pupils and staff. The public sector equality duty, created under the Equality Act, requires schools and other public authorities to eliminate discrimination and to advance equality in its everyday business, in the design of its policies and curriculum. Schools have a legal responsibility for eliminating discrimination; to do this, schools are required to raise pupils' awareness of diversity and promote respectful relationships with those who are different from them.

10 How is PSHE monitored and assessed

As well as continuous formative assessment. for each of the six units we carry out a pre- and post-unit assessment activity. Conducted twice, first at the beginning of the unit to determine where the children are at; and then again at the end of the unit, enabling us to monitor progress, record key points and identify areas for further development. This enables both teacher and child to see what progress has been made over the course of each half-termly unit of lesson plans.

11 Roles and Responsibilities

The governing body will approve the PSHE and RSE policy, and hold the head teacher to account for its implementation.

The head teacher is responsible for managing requests to withdraw pupils from components of RSE.

12 Staff

Staff are responsible for:

- Delivering PSHE and RSE in a sensitive way
- Modelling positive attitudes to PSHE and RSE
- Monitoring progress
- Responding to the needs of individual pupils
- Responding appropriately to pupils whose parents wish them to be withdrawn from the non-statutory components of RSE

13 Pupils

Pupils are expected to engage fully in PSHE and RSE and, when discussing issues related to RSE, treat others with respect and sensitivity.

14 Right to withdraw

Parents have the right to request that their child be withdrawn from some or all of the non-statutory Sex Education our school teaches but not Relationships Education. They do not have a right to withdraw their children from those aspects of Sex Education that are taught in the statutory National Curriculum Science and Health Education. Parents are invited to view our resources and discuss any concerns with our staff.

Before granting a request to withdraw a child/ren, the head teacher will invite the parent to discuss the request with them to ensure that their wishes are understood and to clarify

the nature and purpose of the curriculum. The head teacher will discuss with the parent the benefits of receiving this important education and any detrimental effects that withdrawal might have on their child. This could include any social and emotional effects of being excluded, as well as the likelihood of the child hearing their peers' version of what was said in the classes, rather than what was directly said by the teacher (although the detrimental effects may be mitigated if the parent proposes to deliver sex education to their child at home instead). The school is responsible for ensuring that should a child be withdrawn, they receive appropriate, purposeful education during the period of withdrawal.

Parents should be given every opportunity to understand the purpose and content of Relationships Education and Sex Education. Good communication and opportunities for parents to understand and ask questions about our school's approach help increase confidence in the curriculum.

It is statutory for our school to show parents examples of the resources we plan to use. We will provide opportunities for parents to view examples through class/year group meetings either face to face or virtually. Ongoing communication with parents about what is planned to be taught and when, will be provided through termly letters home. We advise parents to view the resources in order to support them in carrying out their responsibilities relating to providing RSE at home. It is valuable for a child's development to learn about its own families values in regards to relationships and sex alongside the information they receive at school.

15 Monitoring Arrangements

The delivery and progress of PSHE and RSE is monitored through: book scrutinies, learning walks, teacher voice and pupil voice.

The policy will be reviewed every year, in consultation with parents, teachers and other school staff, governors and pupils.

Commented [h1]: We need to send it out to parents

Appendix 1 – What is taught in each termly unit in each year group

(Parrots, Eagles and Penguins will be taught the themes over a two year rolling programme for Term 1-5. Term 6 children will be taught the 'Growing and Changing' unit in discrete year groups.)

	Term 1	Term 2	Term 3	Term 4	Term 5	Term 6
	Me and My Relationships	Valuing Difference	Keeping Myself Safe	Rights and Responsibilities	Being My Best	Growing and Changing
Reception	<ul style="list-style-type: none"> Identifying things we are good at and things we like to do Recognising how we look different and the same as others in our class Our favourite things People who are important to us in our families and at school Who can help us when we need help Hand of Trust Things we can do to cheer us up when we are sad 	<ul style="list-style-type: none"> Things that are the same and thing that are different about us Different kinds of families Different kinds of homes that people live in Being kind and saying kind things to others Being friendly and playing with someone new 	<ul style="list-style-type: none"> Things we put onto our bodies to keep ourselves safe Knowing what is safe to put into our bodies, including medicines Safety at home and outside Identifying if common situations are unsafe or safe What to do if we feel unsafe 	<ul style="list-style-type: none"> Looking after our special people Caring for our environment Looking after money 	<ul style="list-style-type: none"> Bouncing back when things go wrong Eating different types of foods and the jobs these foods do for our bodies Different ways to exercise Bedtime routines and the importance of sleep 	<ul style="list-style-type: none"> The cycle of the seasons throughout the year Life cycles of plants and animals The main stages of the life cycle from baby to adult Babies come from a woman's tummy How our bodies have grown and changed since we were born How and why boys and girls are different
